**40 CFR Parts 262 and 263**

[FRL-5926-3]

**Uniform Hazardous Waste Manifest: Notice of Public Meeting**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Environmental Protection Agency (EPA) will hold public meetings on December 11, 1997 and January 8,

1998 to make information available on a project underway to revise the Resource Conservation and Recovery Act (RCRA) regulations governing hazardous waste transportation.

**ADDRESSES:** The first public meeting will be held on Thursday, December 11, 1997 from 8:30 a.m. to 5:00 p.m. at the Hyatt Regency Crystal City at 2799 Jefferson Davis Highway, Arlington, Virginia 22202. The second meeting will be held on Thursday January 8, 1998 at the Sheraton Fisherman's Wharf Hotel at 2500 Mason Street, San Francisco, California 94133. A meeting for state regulators will take place at the above locations on Wednesday December 10, 1997 and Wednesday, January 7, 1998. States are also encouraged to attend the public meetings.

**FOR FURTHER INFORMATION CONTACT:** For general information contact the RCRA Hotline at 800-824-9346 or TDD 800-553-7672 (hearing impaired). In the Washington D.C. metropolitan areas, call 703-412-9810 or TDD 703-412-3323.

**SUPPLEMENTARY INFORMATION:** Under RCRA, EPA published regulations governing hazardous waste management. A portion of these regulations cover the movement of hazardous waste from its site of generation to a facility that can appropriately manage the waste. Specifically, they are the regulations found at 40 CFR part 262 for packaging, labeling, marking, and manifesting of hazardous wastes in preparation for transport; the regulations found at 40 CFR part 263 which address transportation (and which are jointly issued by the Department of Transportation); the regulations at 40 CFR part 264, Subpart E and 40 CFR part 265, Subpart E governing the receipt of waste at Treatment Storage and Disposal Facilities; and 40 CFR part 271 regarding state program implementation of the manifest system.

EPA is preparing a rulemaking to modify the current hazardous waste manifest system to reduce its burden. EPA is considering several approaches to reducing the burden of the Uniform Hazardous Waste Manifest form and the manifest system in general. These include the use of automation to electronically prepare, transmit, and store manifests; the use of a streamlined paper form; easier access to manifest-related information; and allowing some

current manifest users alternatives to the traditional tracking system.

The purpose of these public meetings is to explain the draft rulemaking strategies the Agency is considering and to gather information on whether these strategies ensure that the burden of the manifest tracking system is minimized while ensuring the safe movement of hazardous waste.

The Agency believes that this project will affect all small quantity generators and large quantity generators of hazardous waste. The regulated community will benefit from public meetings by having early input into the regulatory development process. The Agency will be able to use this early input to finalize options it will incorporate into a proposed rulemaking on the manifest. Such early discussion will result in more fully developed options which take into account as much as possible, the input received from participants. EPA will answer questions and will receive informal input from the regulated community and from states as to whether the strategies developed by EPA will result in burden reduction without compromising environmental protection.

EPA will also hold separate meetings with state hazardous waste regulators to discuss state implementation of the new manifest system. State meetings will be held on the day prior to the public meetings.

EPA anticipates publishing the proposed rulemaking in the Fall of 1998 at which time formal comments will be taken from the public. The RCRA Hotline will take names and addresses of those who would like copies of the materials developed at the meetings.
